**Recommendation Letter for Loo Chee Kean**

**Dear Sir/Madam,**

It is my great pleasure to recommend Chee Kean for the NUS Overseas College program. Chee Kean worked at Logik Haus as a part time Web Developer from August to October in 2021. He was responsible for the development of backend architecture, web page design and web server management.

Within these three months, Chee Kean has shown me his capability and reliability in completing tasks. He possesses excellent communication skills; during our meetings, he delivered his content in an organised manner as well as provided insightful suggestions and feedback. Chee Kean is a responsible individual who can deliver his tasks punctually and assume responsibility for the mistakes committed.

Additionally, I am impressed by his motivation and initiative in expanding his knowledge and subsequently applying these skills in his work. He has shown me his persistence in solving problems by addressing them strategically and confidently.

Therefore, I confidently recommend Chee Kean for the NUS Overseas College program. With his personality and extensive knowledge in his field of study, I believe that he will be a valuable addition for any company or institution.

Yours sincerely,

  
Daniel Kho,  
Director, LogikHaus
